DPI Learning in Practice

Building Consensus around a shared DPI

Brian King

Senior Manager
Technology Integration
Alliance Bioversity-CIAT

Q1. How to build Consensus around a shared DPI?

Need

High-quality, usable
data as the backbone of
compliance

Benefit

Access to finance, and
improved sector
performance

Central Challenge

TRUST
Data accuracy
Ownership
Recourse
Farmer inclusion

Gaps

Digital Identity
Rural Connectivity

Q2. What still needs to be solved?

Governance

- No single governance model preferred
- Emerging direction:
 - Hybrid, service-specific approaches
 - Public, private and neutral actors
 - Stronger farmer participation

The process proved effective in quickly identifying common ground while also surfacing acceptable compromises where views diverged, demonstrating its value for navigating complex policy and system design challenges.
